

Hi Mrs Wolf :) This is Emily Wang from your eighth grade english class in IMS two years ago. I've never really gotten a chance to tell you how much I appreciate for what you've done for me when I was going through the difficult language barrier. Thank you so much for spending time after and outside of school to help me with my difficulties in English, and I really think that what you've taught me prepared me better for high school. I really enjoy the English class that I'm currently taking in IMS and am challenge AP English next year. I don't think that I would ever be able to make this decision if I've never had someone like you to teach me :) Thank you so much and happy teachers appreciation week !!

Sincerely

Emily Wang
